DEPARTMENT OF COMMERCE  
Charles Sawyer, Secretary

# UNITED STATES FOREIGN TRADE

OCTOBER 1948

## WATER-BORNE TRADE BY UNITED STATES PORT

SUMMARY REPORT  
FT 972

FOR IMMEDIATE RELEASE  
FEBRUARY 4, 1949

Export figures include reexports, trade between Alaska, Hawaii, and Puerto Rica and foreign countries, export shipments to United States Government agencies except the U.S. Armed Forces and exports under the various foreign relief programs made on commercial vessels only. Excluded from export figures are shipments to the United States Armed Forces abroad for their own use, shipments by the Department of the Army to occupied countries under its Civilian Supply Program, shipments between continental United States and the Territories and Possessions, and shipments between the Territories and Possessions.

Exports by vessel are credited to the trade area in which the merchandise was unladen, while imports are credited to the trade area in which the merchandise was laden.

The import figures are general imports and represent the total of imports for immediate consumption plus entries into Customs bonded storage and manufacturing warehouses.

Shipments on Army-or Navy-operated vessels and shipments in transit through the United States from one foreign country to another are not in-

cluded in either the import or export figures. Army-or Navy-operated vessels represent export shipments under special programs such as Civilian Supply, Interim Aid, Greek-Turkish Aid, etc. and import shipments made by the Department of the Army or Department of the Navy under the following arrangements:

1. Shipments under those programs by the Departments of the Army and Navy on American-flag commercial vessels. In most cases the vessels are chartered by the Army or Navy under time charter, voyage charter or space charter arrangements.
2. Shipments under these programs by the Department of the Army and Navy on Army or Navy transports (vessels owned and operated by the Army or Navy).

None of the import or export figures have been adjusted for change in price level.

The data presented in the following tables are preliminary and include revisions which have been made since the release of data for September 1948.

### FOREIGN TRADE REPORTS OF THE BUREAU OF THE CENSUS

Summary reports showing monthly data on United States foreign trade are issued as follows:

- FT 900 - Overall total export and import data; no country or commodity detail.
- FT 930 - Exports and imports by economic classes and leading commodities; no country detail.
- FT 950 - Exports and imports by countries of destination and origin; no commodity data.
- FT 970 - Foreign trade by United States Customs Districts; no commodity or country data.
- FT 972 - Water-borne foreign trade by United States Customs Districts and ports.
- FT 973 - Water-borne foreign trade by trade area.
- FT 975 - Entrances and clearances of vessels by United States Customs Districts and areas.
- FT 976 - Participation of American and Foreign Flag Vessels in shipments under United States Foreign Relief Programs.
- FT 981 - Shipping weight and Dollar Value of Merchandise Laden on and Unladen from Vessels at U. S. Ports during the Intransit Movement of the Merchandise from one Foreign Country to another.

Additional detailed commodity and country data are available in the form of the other FT reports. A catalog may be obtained from the Bureau of the Census, Washington 25, D. C.

Prepared in the Foreign Trade Division of the Bureau of the Census.

NOTE: Totals represent the sums of unrounded figures, hence may vary slightly from the sums of the rounded amounts.  
<sup>1</sup> Less than 50,000 pounds; less than \$50,000.  
<sup>2</sup> Includes exports under the Department of the Army Civilian Supply Program.  
<sup>3</sup> Preliminary data. For description of type of shipments included see COVERAGE. Only those ports whose combined Export and Import tonnage averaged 5,000,000 pounds or more per month during the calendar year 1947 are shown.  
<sup>4</sup> District totals, however, provide data for all ports within the district, including those ports not individually shown. Thus the sum of the ports shown within each district may not equal the Customs District total, although all Customs District totals combined will equal the grand total.  
<sup>5</sup> Add figures to obtain Total Exports through the Customs District of Florida.

NOTE: Totals represent the sums of unrounded figures, hence may vary slightly from the sums of the rounded amounts.

<sup>1</sup>Less than 50,000 pounds; less than \$50,000.

<sup>2</sup>Preliminary data. For description of type of shipments included see COVERAGE. Only those ports whose combined Export and Import tonnage averaged 5,000,000 pounds or more per month during the extended year 1947 are shown; the district totals, however, provide data for all ports within the district, including those ports not individually shown. Thus the sum of the ports shown within each district may not equal the Customs District total, although all Customs District totals combined will equal the grand total.

<sup>3</sup>Add figures to obtain total Imports through the Customs District of Florida.
